

Phoenix Astronomical Society, Inc.

PHOENIX, ARIZONA

February 29, 1980

Next meeting: Friday evening, February 29, 1980, at 8:00 P.M. in the Science Building of Phoenix College, 11th Ave. and Thomas Road.

Program: A presentation by Dr. Arthur Hoag, director of the Lowell Observatory in Flagstaff on: "Current Research Programs at Lowell Observatory," including planetary studies, deep sky research, quasars, and a discussion of some current interpretations of the Hubble constant, on which is based the estimated size and age of the universe.

It has been several years since we have had the pleasure of welcoming Dr. Hoag, and this is one meeting that no member should miss.

Reminder: For those of you interested in deep-sky photography, the club now has available 35MM film in 36 exposure cassettes of the 103 series, (AE, AF, and AO) at the greatly reduced price of \$2.70 per roll. Also, for high resolution lunar and planetary photography, 36 exposure cassettes of SO 115 film are also available at \$1.43 per roll.

To obtain any of these films contact our President, Jerry Maurer, at 3321 E. Yucca Street, Phx. Ariz, 85028, telephone number: 996-4478.

For Sale: 6" f:7 Newtonian reflector on heavy duty mount.
Contact Vern Weakland, telephone number 936-2234.
