

Phoenix Astronomical Society, Inc.

PHOENIX, ARIZONA

September and October, 1980

First meeting: Friday evening, Sept. 26, 1980 at 8:00 P.M. in the Science Building of Phoenix College, 11th Ave. and Thomas Road.

Program: An illustrated presentation by Richard Willey, Director of the Flandrau Planetarium in Tucson, "The Tale of the Tucson Meteorite: Frontier Fact or Fiction?" A very interesting story.

SAVE THIS DOUBLE NOTICE!!

Next meeting: Saturday, Oct. 11, late afternoon to - ??? Star Party at the Lines' Observatory in Mayer, Arizona for observations with the 20" reflector. From Main Street in Mayer turn South on Wicks Avenue, (Texaco station), drive to the church at the top of the hill, turn left approximately one block and follow P. A. S. sign. Bring telescopes, chairs, your own refreshments, and warm clothing. Please, no children under 12 years of age.

AND NOW FOR THE DUES!!

Please fill out the enclosed enrollment card and return it with your check (along with your Sky & Telescope computer renewal card) to Chuck Nash, 2736 West Rose Lane, Phoenix, Ariz. 85017, or bring them to the first meeting. Make checks payable to: Phoenix Astronomical Society. Please plan to get your dues in as soon as possible so the subscription list can be sent to Sky & Telescope in time to insure no renewal delays. Only paid members will receive meeting notices after October.

THOUGHT FOR THE MONTH

A billion seconds ago was Pearl Harbor,
A billion minutes ago Christ was on Earth,
A billion hours ago man had not yet appeared,
But, a billion dollars ago was only yesterday
in Washington, D. C.
