

PASTIMES

PHOENIX ASTRONOMICAL SOCIETY -- FOUNDED 1948

February Meeting

David Levy, of the Planetary Sciences Center, Tucson will speak on "Hunting Comets". The meeting will be 7:45 at Room 102 of the Science Building, Phoenix College.

Notice to Members

Many thanks to all the members who attended our January 22, 1988 meeting. Bill Romanashin gave a wonderful lecture on galaxies and quasars. David Levy, our speaker for February 26[✓] meeting has discovered three comets recently, so he will be a very exciting speaker on this subject. Some of us have heard him speak before and he puts on a beautiful program. Please call a friend, teacher, teenager, or anyone else interested in seeing an inspiring program.

Many of you know from our previous letter that Clyde Tombaugh, discover of Pluto is going to come to Phoenix on March 25 to deliver a lecture. This will be a memorial lecture for Amos Hoff, who was Mr. Astronomy to the Phoenix area. This will be a combined meeting with Saguaro Astronomy Club and will require a great publicity effort on behalf of all of us. We need to promote this meeting to scientific groups, colleges, businesses, individuals, and all the general public. Please be ready to help.

Dick Wasson, President
