Astronomy Fans: YOU are Invited to a Free Lecture on

Diamond dust and other relicts of the dawn of the solar system

PHX: Join the Phoenix Astronomical Society on ***October 5, 2023, at 7 p.m.***, for a captivating lecture by **Dr. Rhonda Stroud**, a Professor in the School of Earth and Space Exploration at Arizona State University, and the Director of the Buseck Center for Meteorite Studies.

Dr. Stroud will share recent research on stardust from supernovae and stars older than the Sun, which are preserved in primitive meteorites. Utilizing advanced electron microscopes, she investigates the intricate composition and structure of this ancient stardust, shedding light on the conditions of their ancient parent stars.

This is one of our monthly lecture hybrid series events, held at PVCC's main campus **as well as online** via Zoom. Please register for this free event at <https://bookwhen.com/pas-event-calendar/e/ev-snr7-20231005190000>
