Astronomy Fans You are Invited to a Free Star Party

Phoenix, AZ

The [Phoenix Astronomical Society](#) is once again holding a free star party on Saturday June 8, 2024 at 6:30 p.m. What makes this star party special is, it will be a super dark sky event.

If you have a telescope, bring it. If not, come anyway as the telescope owners will graciously share the view.

To find out more details about the location and to attend this event, you must pre-register because if the weather is predicted to be cloudy or rainy, we want to alert you via email. So, friends, find your way to this link: [DARK SKY STAR PARTY](#) and pre-register for a fun night viewing the cosmos. Yep, this is a free event, so bring a friend.

To learn more about the Phoenix Astronomical Society and what we do visit: www.pasaz.org
